JOIN OUR PROGRAM!

COLLABORATIVE ANTHROPOLOGY

Programa de Pós-Graduação em Antropologia Social PPGAS-UFSCar

For M. A. students in the Postgraduate Program in Social Anthropology

INSTITUT FÜR ETHNOLOGIE
GOETHE-UNIVERSITÄT FRANKFURT

WHAT IS IT ABOUT?

\# opportunities for **collaborative research** between students at UFSCar in São Carlos and at GU in Frankfurt

\# **support structure** for the development of joint research projects and the writing of theses based on collaborative research

CollabAnthro certificate

As part of the program, students can earn a certificate in Collaborative Anthropology (on top of their regular degrees). Eligible are all M. A. students enrolled in the Postgraduate Program in Social Anthropology at UFSCar as well as all students enrolled in the B. A. and M. A. program at the Department of Social and Cultural Anthropology in Frankfurt

Activities related to the CollabAnthro certificate may also count for your regular study program. For more information, please talk to your mentor at UFSCar

OUT LINE

Collaborative research counseling
Counseling sessions (virtual or on site) with the program coordinator

Knowledge in collaboration
Courses in the regular study program on collaborative epistemologies

Virtual get-together
Regular meetings between all program participants

Reflecting collaborative research
Participation in joint digital workshops to reflect on possible formats for collaboration and develop a research proposal

Self study and matching
Self-organizing project teams, each with two to four students enrolled in at least two different institutions

Language skills
Enhancing language skills in English by participating in the program and in a second foreign language through courses or peer-to-peer learning (with an emphasis on local languages)

Designing collaborative research
Project teams participate in a workshop to develop and present joint research projects

Summer school 2024 in Frankfurt
Attending a three-day summer school at Goethe University (virtual attendance will be possible)

Joint research
Realizing a collaborative research effort. Collaborative research can be realized by conducting fieldwork together (4 weeks in Germany + 4 weeks in Brazil) OR conducting fieldwork separately on the basis of a joint research framework and question OR other means

Documentation of research experience (research blog)
Project teams compile a joint entry for the CollabAnthro research blog

Completion and submission of thesis
The thesis is based on the collaborative research of the project team and counts equally for the regular study program as well as for participation in the certificate program
